Python
Data Structures & Algorithms

Week 7

Review Assignments

6.1

I think this project got mixed up.

Make time to practice chapter 13 matplotlib

Questions?

https://pythonbasics.org/matplotlib-bar-chart/

Data visualization

We now need to use tools that aren't built in

We need to install pip

This is the tool that lets us download python tools

https://pip.pypa.io/en/stable/installing/

https://pythonbasics.org/matplotlib-bar-chart/

Capstone project

This is based on the textbook chapter 13, Implementations, Applications, and Tools

the pause and practice chapter 13, look for other videos covering the same topic

Use a python tool to read in a csv file

What type of chart are we making?

Just do your best

Week 8

Extra time to work on the capstone

Final thoughts

This class is very abstract and academic

Don't worry about feeling confused

Keep in touch on slack
